On 20 December 1948 Dr. Trager of FSI called to say that they are apologetic about the present Russian course because the native informant was not as good as they had hoped. No outside work would be involved and a different native informant would be used.

He said that [] was first and [] was second in the class and that they should definitely get this drill otherwise most of the instruction would be lost. [] gave approval on 22 December for all of them to attend. [] would attend the entire month, [] would attend until their departure.
